# Growing Minds, Naturally

## Educational Farm Programs for School Students.

At Vaksana Farms, education goes beyond classrooms. Here, students step into nature, discovering how farming, animals, and ecosystems work together to sustain life.

**Come, visit us.**

## Brick Making

Experience how bricks are shaped using clay and natural materials.

## Dream Farm Layout Challenge

Design your own eco-friendly farm layout as a team.

## Making Bio Enzyme

Learn to create natural cleaners that are safe for the environment.

## Tree Climbing & Tug of War

Build confidence, strength, and teamwork through outdoor play.

## Carbon Footprint Challenge

Discover how green your lifestyle is and ways to improve.

## Identifying Edible Weeds

Explore wild plants and understand their uses in nature.

# Special Programs

We design programs to suit different age groups:

**For Primary Students:** Fun-filled nature play, seed ball making, feeding animals, and cultural games.

**For Middle School:** Deeper learning with eco-practices, composting, bee-keeping, and water conservation activities.

**For Higher Secondary:** Leadership-based tasks, sustainability workshops, reflective circles, and environmental problem-solving.

## Permaculture Principles

Understand how nature designs ecosystems – and how we can too!

## Pumpset Bath

Splash and laugh under the open sky in our traditional pumpset bath!

## Village Games

Play the games your grandparents loved—pure joy, no screens.

## Tractor & Trailer Ride

Hop on for a bumpy, fun-filled farm tour on our tractor!

## Feeding Farm Animals

Camels, horse, cows, sheep, turkeys, geese, ducks, chickens & more

## Nature Journaling

Pause, observe, and record the magic of farm life.

## Building Your Dream Farm

Imagine, sketch, and build your version of an ideal farm!

## Understanding Food Miles

Learn how far your food travels and why local matters.

## Best Eco-Practices

Explore sustainable ways to care for our earth.

## Food Self-Sufficiency

See how we produce everything from farm to fork.

## Water Conservation

Discover how we save every drop on the farm.

## Planting Saplings

Put your hands in the soil and leave a green legacy.
